

Please find below some testimonials from our customers.

**Word Of Mouth Magazine, North Wales**

Word of Mouth magazine is created using Apple Mac and we also use normal PCs for some of our office work.

In March this year one of the Macs in our office blew just days before we were to go to print with the paper version of the magazine. After a brief telephone call explaining what had happened and that to hit our deadlines we needed to move everything over to other computers quickly, Stargate Computers understood our urgency and were with us within 3 hours of the phone call.

Our office is located over 70 miles away from their office but within 5 hours they had us up and running again.

They also gave us some very useful information on improving our working systems and upgrading our existing software. We also plan to have Stargate come and network all of our computers - PCs and Macs - in the near future

I would recommend Stargate Computers for assisting with both Applemac and PC computers.

**Gardiner Motors Ltd**

We changed our IT Support just over a year ago to Stargate Computers. During this time we have been extremely pleased with the service we have received. Should we ever require IT Support, it is always available without delay and problems are always quickly restored. We have also been very pleased with the level of "extra" support that we have received showing that Stargate Computers are willing to go the extra mile. As an added bonus to excellent service, we feel that the cost is very reasonable.

**Mrs S Robinson**

I have found Stargate Computers the most helpful and reliable company ever. I do not know a lot about computers and John from Stargate helped me with everything from setting up our PC right through to the technical side also. John and his wife Bev was on time, very polite and worded everything easy so I would understand the jargon. They called a few days later to make sure everything was going smooth. I would recommend Stargate Computer to all my family and friends. Thank you both for all your help and advice I won't be using any other computer company again.

**Prof. D James**

John has now sorted out two separate sets of Mac problems for me. On both occasions he has managed to visit me at very short notice. His fees have proved both very competitive and exactly as quoted with no hidden extras. I particularly like the trouble he has taken to explain how the problems have arisen and how I can best avoid them in future. This is friendly service that goes beyond just the fixing and comes at no extra cost. He will be my first choice for Mac

Stargate Computers - Testimonials  
support in future.

Prof. D James, Finedon, Northamptonshire.

**Miss P Fletcher**

I've had Stargate Computers services for over a year now. As im a student, John helped me set up a student office pack for my college work. He showed me how everything worked. He's supplied me with a anti-virus software pack and updated my pc. I would recommend Stargate services to anyone because they are fast, reliable and John always explains everything he does. John built up my pc and made sure everything was working fine and running and connected me upto the internet over a wireless network.

Miss P Fletcher, Northwich, Cheshire.

**Angel Moonlight**

Since I started my company I have found Stargate Computers very reliable both with helping me design my website and my IT needs. They are honest with costs and advising with solutions. I would recommend Stargate Computers to anyone with both PC or Mac whether at work or home.

Bev, [Angel Moonlight](#).
